CHALLENGES OVERCOME

Super Centric's portfolio included services related to:

- SMSF Documentation
- Portfolio Administration
- SMSF Administration
- SMSF Audit

Recruiting for financial marketers, advisors and other critical positions in an unknown territory is not simple.

They had limited resources and knowledge of the Indian markets, policies, and pattern of recruiting.

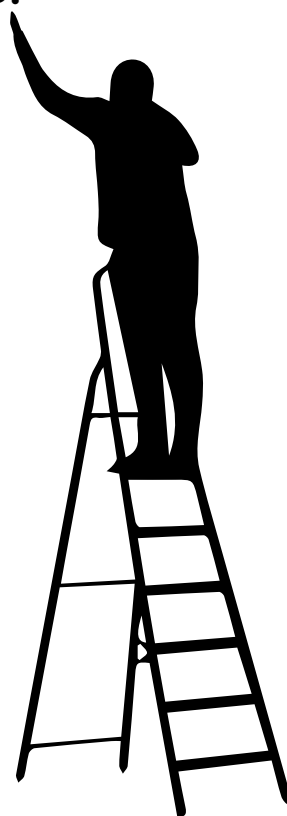

With time being a major constraint, we were challenged to finish the campaign and the hires in 10 days.

We worked actively with their representatives to newly design their HR department and policies to suit the Indian scenario, build their future team, and establish them in the current market.

Their very own dedicated recruiting manager from Multi Recruit helped them understand our campaigns and methods for successful hires within a short period of time.

Our fixed prepaid plans were appreciated by them since they were clean and easy to translate to their Australian counterparts.

We are thankful to Super Centric to have included us as part of their success.
